"Their software allows us to track, manage and collaborate on our projects from anywhere. It keeps the whole team in-sync without being intrusive."

"We have been able to cancel so many other subscriptions since using Manage. There is no more cross-channel confusion and everyone is much more focused."

Manage makes it simple for software teams to plan day-to-day tasks while keeping the larger team goals in view.

Stop jumping from one service to another to communicate, store files, track tasks and share documents. Manage offers an all-in-one team productivity solution.
